Setting Up Care

Since no two people are the same, our agency conducts a confidential, in-home assessment to gain a better understanding of your (and your family's) specific needs and expectations. This initial meeting provides you and us with the opportunity to learn about each other and to address any questions you may have about our service.

*Living in your own home
can be the most wonderful
thing in the world.*

It's where you're most comfortable, where you belong. But sometimes it can get overwhelming and you'd like someone to help out. What better solution than to call our agency. Whether it's long or short term, we offer quality companion care that can make all the difference.

Our companions can provide many services including supervision with bathing, dressing, medication reminder, social interaction, meal preparation and light house keeping. In addition to these services the caregivers can transport the client to activities (doctor's appointments, etc.). Not only do we offer companions that are well-trained, we also screen our companions carefully so you'll be able to trust that you are getting the best possible assistance.

Our companions are all experienced. Most of all, they understand that home care is all about the comforts of your own surroundings, and they go out of their way to make you comfortable.

Whether you or someone you love is disabled, recovering from an illness, or just simply in need of companion care, our agency is ready to help. Our rates are competitive, our staff top notch and we're always available with our 24-hour 7 days a week on-call service.
